

## SHOW HE OWNED OVER A MILLION

Bankers Testify to McCray's Liabilities March 1, 1923, When he Said They Were Only \$537,000

### AMOUNT TO BE INCREASED

Hand-Writing Experts to Testify Signatures on Notes Discounted Were Defendant's Writing

(By United Press)

Indianapolis, Ind., April 4—Governor Warren T. McCray had banking indebtedness of a million and a quarter dollars on March 1, 1923, according to the testimony of seventy Indiana bankers who had testified up to noon in the trial of McCray on larceny and embezzlement charges.

Attorneys for the state said this amount would be further increased by the testimony of more bankers who were ready to take the stand this afternoon.

Throughout the morning the procession of bankers continued in criminal court, each banker telling how much the governor owed his bank on March 1, 1923. The governor's financial statement given to I. Newt Brown the secretary-treasurer of the state board of agriculture, showed liabilities of \$537,000.

The statement was given to Brown shortly before \$155,000 of the board's funds were turned over to McCray.

Special prosecutor Nichols said the state had decided to call additional witnesses and that it would be some time Saturday before they could be heard.

This announcement put an end to reports that the state would rest its case today.

The new witnesses, it was understood, will be hand-writing experts who will be introduced by the state in an effort to prove that the signature on many notes discounted by McCray by state banks, is the hand writing of the governor.

E. E. Ohman, clerk of the loan and discount department of the Harris Loan and Trust company of Chicago, said that on the date in question McCray owed the company \$100,000 in direct obligations.

Other witnesses testified to the following indebtedness:

Steuben County Bank, Angola, \$5,300 indirect.

A. H. Schnell cashier Peoples Savings Bank, Evansville, \$10,000 direct.

J. F. Hall, vice president American National Bank, Vincennes, \$9,900 indirect.

C. H. Ayer, cashier of the North Side Bank of Evansville, said McCray owed his bank nothing on March 1, 1923.

This brought the governor's total liabilities on March 1, 1923, up to \$1,070,823.

Appealed to Superiors in Vain, He Testifies, When Superintendent of Prisons Stopped Him

(By United Press)

Washington, April 7—William J. Burns, chief of the bureau of investigation of the Department of Justice, today told the senate Daugherty investigating committee that he was prevented from going after the "higher ups" behind the "dope" traffic at Atlanta penitentiary.

Declaring that he was told by one of his agents that Superintendent of Prisons Votaw, brother-in-law of the late President Harding, had ordered his investigation of the traffic stopped, Burns said he had appealed to his superiors in the department of justice without avail.

J. W. Dyche of Oklahoma, a prohibition agent, was the first witness called today. Dyche was formerly warden at the Atlanta penitentiary.

Dyche said the inspector of prisons called on him at Atlanta when he was warden and asked him "to step out" as Attorney General Daugherty was "in again". He said he was relieved as warden and then obtained an appointment as prohibition agent.

## K. OF P. LODGE TO ATTEND IN A BODY

Will Have Part in Song Service at the First Presbyterian Church This Evening

### LAST SERVICE FOR BONNEY

Two Conditions of Entering Heaven Emphasized by Pastor—Trust And Self-Renunciation

Tonight at the First Presbyterian church the Knights of Pythias lodge will attend in a body. They will also have part in the song service.

This will be Gerald E. Bonney's last service in the meetings. He has made many friends and they will want to hear him again.

The pastor, the Rev. Gibson Wilson, used Luke 18:18 as his text, "Good Master, what shall I do to inherit eternal life?"

He spoke in part as follows:

The eighteenth chapter of Luke is a chapter on entering the kingdom, and all of it should be read.

Two conditions of entrance are emphasized. One is trust, the other is self-renunciation. Our subject tonight is self-renunciation. Men are daily seeking the kingdom. Among them, are rulers of nations, men of great means, people from the ranks of men. This young man had a great vision and ambition. When he saw the cost of it, let the opportunity slip through his fingers, and turned away from it.

Dante speaks of him as the young man who made the Great Refusal.

To serve God means the denial of other plans of salvation. You may have much that is commendable. Your excuse may not be wealth. It may be indifference that is keeping you away.

You may have a desire after salvation.

## ROXIE STINSON IS QUAKER BY BIRTH

Witness in Senate Investigation Says Only One Thing Quaker About Her is She Cannot Lie

### EXPLAINS HUSBAND'S SUICIDE

"Jess and I Were Wonderfully Congenial and Grew Steadily Fonder of Each Other," She Stated

By JULIAN STREET

Washington, April 4—Roxie Stinson, former wife of the late Jess Smith and star witness in the senate General Daugherty is a Quaker by birth.

She was born in South Dakota but their family moved to Memphis, Tenn., and again, when she was ten, to Washington Courthouse, Ohio.

"My father's family were Quakers from another part of Ohio," Miss Stinson said to me when I interviewed her and she added "I don't believe I have anything of the Quaker about me, except that I cannot lie."

"If I had committed a murder and was asked whether I had done it, I would have to say 'yes.'"

After a musical education, Roxie married Jess Smith, who owned a small department store in Washington Courthouse, but a year later divorced him on a technical charge of gross neglect. The hearing was private and there was nothing about the divorce that reflected on the conduct of character of either.

Explaining her subsequent close friendship with her ex-husband, Miss Stinson said "we still cared for each other and we realized that if we remained friends we would, probably be criticised but we decided that our friendship was enough to off-set the criticism of strangers. For our friends, they understood and accepted us."

"Jess and I were wonderfully congenial and grew steadily fonder of each other. At the time of his death I was closer to him than ever before."

"He was a fine man and never did anything dishonorable."

"When he came back from the convention at Chicago, he told me and my companion how Harry Daugherty got the nomination for Harding, going at two in the morning to a room where a secret conference was being held, and strong arming it through."

"The three people Jess loved were Harry, Mal Daugherty and me."

"After they came to Washington, Jess used to travel around with Harry and sleep in the same room with him."

"In April Jess came home in Washington Courthouse and I saw he was in a highly nervous condition. Once, apparently under great stress."

## BATH THAT PURIFIES POTATOES

It Is Especially Important That Early Potatoes Be Treated

C. T. GREGORY  
(Agricultural Extension Staff, Purdue University)

A potato grower buys certified seed and thinks his troubles have ended. Some men have been greatly surprised to find that the potatoes produced from this certified seed were shabby. This is not surprising since certified seed cannot be freed entirely from scab and black scurf, but only from those diseases which eat the yield without showing in the tuber. Such as leaf roll and mosaic.

All certified potatoes should certainly be treated in a corrosive sublimate bath to kill scab and black scurf. This bath is only for the potatoes and animals should be kept away from it for fear they may drink it. It is very poisonous. Make this solution of four ounces of the

corrosive sublimate in 50 gallons of water, or seven ounces in 50 gallons. Soak the potatoes in this solution for one hour. If there are many potatoes to be treated it is best to add enough water after each batch to make the solution back to its original amount and then add two to three thirds of an ounce of the corrosive sublimate. Use no metal containers with corrosive sublimate.

It will take from three to four hours to treat enough seed for an acre. Any farmer planting 10 acres or more of potatoes, will want to shorten this time. He can do so with the hot formaldehyde treatment which is just as effective as the corrosive sublimate and shortens the time of each soaking to two minutes. Enough seed for an acre can be treated in about thirty minutes. Use two pints of formaldehyde in

30 gallons of water. Introduce a steam pipe into the solution so that it may be heated from 118 to 122 degrees, and the temperature held constant. If this solution is deep enough to cover the potatoes it is only necessary to dip a crate of potatoes two minutes. Pile the tubers and leave them so for an hour. After which they may be spread out to green sprout or may be cut for seed.

Be sure to treat all green seed before they are sprouted.

## COMPLAINT DISMISSED

The complaint of Maybelle Sampson against Oakley Sampson, Arlington people, in which the plaintiff was asking for support and which was sent to Greensburg for trial on a change of venue, the case has been dismissed. It is stated that the parties affected a compromise. The support petition asked that she be granted an increase of \$5 a week in her allowance.

### ROXIE STINSON IS QUAKER BY BIRTH

Continued from Page One  
stress, he exclaimed "they's passed it up to me."

"I knew what he meant. Some six months before there had been started quiet inquiries, instigated by politics, intended to involve the attorney general and Jess in liquor frauds.

"Jess was terribly concerned about it, but Harry, with his usual coolness in big emergencies let it slide off his back. Subsequent pressure and realization of what Harry Daugherty's attitude towards him would be, was the real cause of Jess Smith's suicide.

"During the time Jess was home his attitude towards me changed greatly. Before that he would always greet me with a kiss when we met, but in those last two weeks he became very demonstrative, snatching up my hand and kissing it, or throwing his arms around me and clinging to me as if he was afraid of something and then would say things—Roxie you are just beautiful you are the sweetest thing I ever saw.

"We were so near and dear to each other that I know what was going on in his mind. He was in a great trouble and it worried me so I couldn't sleep. The news of his death came to me on the street in Washington Courthouse. I saw a paper with big headlines and read the words 'Jess Smith killed' but I couldn't see the last word because the paper was folded. Just then Mal Daugherty came along and grabbed the paper away from me. 'I saw—it's out.'

The way to eternal life is to come to Jesus and follow Him. "Believe in the Lord Jesus Christ and thou shalt be saved."

Don't ask God to forgive you until you are willing to forgive. Don't ask Him to save you until you are willing to be saved.

The steamer at the wharf can not leave until the small hawser is loosened, no matter how hard the engine works. You must be willing to cut loose from your sins if you would be saved. All that God has done is of no avail until you do. Give God your life now that you may have time to work for Him in His kingdom.

## Investigating Fire Losses

Newman T. Miller, state fire mar-  
shal, has before him today in confer-  
ence at the state house in Indianapo-  
lis, the chiefs of ten fire departments  
in towns and cities of Indiana where  
heavy fire losses have resulted this  
year.Joe A. Williamson, chief of the  
Rushville department was among  
those summoned for the conference,  
which has been called for the pur-  
pose of making plans to reduce the  
causes for such an enormous loss.  
The first three months this year in  
Indiana there was a loss from fire  
approximately amounting to \$7,000,-  
000.Ft. Wayne started the year with  
a \$500,000 loss, and other cities fol-  
lowed with smaller losses. In Rush-  
ville the fire loss for the first three  
months this year amounted to more  
than it ever did for a single year in  
past history. The local department  
has been called 24 times this year  
to fires, several of which were serious  
losses.Just what good the conference of  
the fire chiefs will accomplish, may  
be seen later. The chiefs alone are  
not to be blamed for the fires. It is  
up to the public to be educated to be  
careful of fire. A campaign along this  
line should be started and followed  
out.A fire prevention campaign is  
something that Rushville never has  
observed in any systematic form.  
This fact is deplorable, because in  
most every city of any size such an  
observance is an annual affair, and  
people are brought face to face with  
problems that will reduce fire haz-  
ards.In cities where such campaigns are  
launched, the fire departments are  
called upon to assist in educating  
the people. In this connection, the  
local fire department has never held  
a drill nor attended a school of any  
kind that might benefit them in re-  
ducing fire problems. These schools,  
drills and fire prevention campaigns  
are regarded by some members of the  
council and fire company, as being  
"too modern" and are termed as time  
wasted. Other cities profit by such  
things.

While the conference in Indianapo-

## Pimples

BLOOD impurities are pumped by  
the heart into the face. That is  
what causes that grainy appearance,  
that muddiness, sallowness, pimples,  
blackheads, acne, red spots, and that  
impossible "something" which no face  
cream, massage, or face powder  
can cover up or beautify! The  
foundation for a beautiful skin  
simply is notthere, and no face treatment can give  
it to you. But increase your red-  
blood-cells, and quickly the ruby  
tint of purity begins to glow in the  
cheeks, the complexion becomes ven-  
us-like and immaculate! Try it.  
It will do it every time. S.S.S.  
builds the red-blood-cells you need  
for a beautiful complexion. Begin  
using S.S.S. at once, and give your-  
self what you have been working  
for, for years.S.S.S. is sold at all good drug  
stores in two sizes. The larger size  
is more economical.

## Hunt's Washington Letter

BY HARRY B. HUNT  
NEA Service Staff Writer.WASHINGTON, D. C.—Calvin  
Coolidge is feeling better. He  
has a load off his shoulders—and  
off his mind.Just to study the physical and  
mental reaction on the president of  
the retirement of Attorney General  
Daugherty from the cabinet, I  
dropped around to the White  
House a couple of hours after  
Daugherty had handed in his resig-  
nation and taken a train for At-  
lantic City.As Coolidge arose from his chair  
behind his desk he pushed the  
chair from him with a backward  
thrust of one leg. He slipped his  
horn-rimmed glasses from over his  
ears and dangled them in one hand.  
He stood slightly stooped, tired-  
looking eyes sunken deep in his  
head and squinting through nar-  
rowed lids, as though driven too  
long in concentrated study or  
without sufficient sleep.Then as if consciously squaring  
himself for a new contest, he threw  
back his shoulders, lifted his head  
and smiled—a little grimly, per-  
haps, but still a smile.  
One sensed, as he talked, an air  
of relief in his voice and attitude.  
The atmosphere of preoccupation,  
of mental aloofness, that has en-  
shrouded him in recent weeks, was  
gone. A blind corner had been  
turned, and the road ahead seemed  
a bit safer if not easier.ON the way to the executive  
offices, as I passed under the  
big north portico of the White  
House, I glimpsed a stocky, broad-  
shouldered, swarthy man leaning  
nonchalantly against the low wall  
flanking the entrance. He was  
talking with a second man, nod-  
ding his head with deliberate em-  
phasis as he spoke. There was  
about him the assurance, the air  
of proprietorship, of the boss of the  
ranch thoroughly at home in hisown establishment. One felt that  
he felt all the importance of being  
president without, personally, hav-  
ing to shoulder the responsibilities.This man is the "closest friend  
and advisor" of the president—  
Frank W. Stearns, of Boston.What Colonel House was to Wil-  
son, what Harry Daugherty was to  
Harding, Stearns is, and more, to  
Coolidge. House never maintained  
the close and continued intimacy  
with Wilson that Stearns enjoys  
with Coolidge. The relationship is  
a broader and deeper one than that  
between Harding and Daugherty.It extends far beneath matters of  
politics and policy, with its roots in  
a personal regard and confidence  
that is more like that of father and  
son than candidate and political  
manager. The White House is vir-  
tual home to the Stearnses in  
Washington—and they're in Wash-  
ington now most of the time.UP to March 30, after having  
been in session four full  
months, the Congress had enacted  
just ONE law. Just one bill had  
passed both houses and been signed  
by the president.Taxation, bonus, appropriation  
measures, immigration and other  
important questions still are in  
half-baked stages. Those that have  
passed the house, taxation and  
bonus for example, will be largely  
revamped in the Senate. With the  
date of the national conventions  
now but two months away, there is  
little likelihood of adjournment by  
that time. Instead, Congress prob-  
ably will recess over the conven-  
tion weeks, and put in the remain-  
der of the summer in Washington  
sweating over legislation and mak-  
ing political thunder.The fever of investigation rages  
unabated, despite hopeful bulletins  
that the worst of the epidemic has  
passed. They will last through at  
least another two months—prob-  
ably longer.FIFTEEN YEARS

searching. They are, I believe, the  
best beauty helps in existence. No  
one I know has, in other ways, at-  
tained any like results.So I have had these helps prepared  
and placed where all may get them.  
And I hope to see them bring to  
millions the benefits I got.

## Just Four Will Do

These beauty helps comprise 32  
different factors. But great experts  
have combined them in four prepa-  
rations. And all are sold at modest  
prices which every girl and woman  
can afford.One is my White Youth Clay. A  
clean, refined clay, vastly more ef-  
ficient than ordinary clays. A clay  
perfected by French experts through  
20 years of scientific study.My White Youth Clay brings a new  
complexion, rosy, clear and clean. It  
combats all lines and wrinkles. No  
woman who once tries it will ever go  
without it. It costs 50 cents and \$1.

## Youthful Bloom

My Youth Cream is a cold cream  
like nothing else you know. It con-  
tains products of both lemon and  
strawberry. French experts have en-bodied in it the best skin helps they  
know.  
Apply it after the clay. Also use it  
as a night cream, also daytimes as a  
powder base. Keep it ever on the  
skin to feed and whiten, firm, soften  
and protect. The price is 60 cents.My Facial Youth is a liquid clean-  
ser, now used by leading beauty ex-  
perts the world over. It contains no  
animal, no vegetable fat. The skin  
cannot absorb it. So it cleans to the  
depths, then departs. And the dirt  
and refuse nothing else can reach  
comes with it. Great beauty experts  
charge \$3 for it. Mine sells for 75  
cents.

## The Hair You Envy

My glorious hair is due to my Hair  
Youth. It is heavy, silky, lustrous,  
and grows finer every year. Falling  
hair, dandruff and gray hairs are un-  
known to me.My Hair Youth is applied with an  
eye dropper, directly to the scalp. It  
does not muss the hair. It keeps the  
scalp like a well-kept garden where  
hair roots can flourish. It costs 50  
cents and \$1 with eye dropper.All druggists and toilet counters  
supply these preparations, exactly as  
I use them. My Beauty book comes  
with each. They will bring you rich  
rewards. If you want more beauty,  
longer youth, these are the best  
ways science knows to get them. Ed-

## Weakened in Tennis Play

By HENRY L. FARRELL  
 (United Press Sports Editor)  
 New York, April 4—Bill Tilden and  
 Bill Johnston, two young men as ca-  
 pable mentally as they are perfect  
 in the mechanics of tennis, say they  
 prefer to save their resources for the  
 defense of the Davis Cup rather  
 than attempting to win the Olympic  
 tennis champion for United States.  
 To some professional flag-wavers  
 this savor of Bolshevism, and a  
 more conservative viewpoint might  
 find in it the symptoms of an unpatri-  
 otic spirit.  
 Tilden is in the clear, however. He  
 is barred from the Olympic team by  
 the rule passed which prohibits any  
 athlete from writing for publication  
 while he is a member of the team.  
 He is not barred from the American  
 Davis Cup team, because the same  
 kind of a rule passed by the tennis  
 association against player-writers

does not become effective until next  
 year.

Bill Johnston, however, is in the  
 tight place. He says he cannot con-  
 sider an appointment to a place on  
 the Olympic team because he cannot  
 get away from his business long  
 enough to play in Paris and in the  
 Davis Cup matches and he prefers to  
 pass up the Olympics.

With Vinnie Richards barred also,  
 from the Olympic team because of his  
 literary leanings, the United States  
 will have to depend upon Dick Wil-  
 liams, Watty Washburn and, per-  
 haps, a few college players. Hunter,  
 Anderson, the Kinseys, and several  
 others are also writers.

Under the circumstances it is  
 quite possible that the United States  
 might finish no higher than second  
 in the Olympic tennis matches, and  
 in that event Johnston will have to  
 answer the question: "Why did you  
 leave your country flat when you  
 could have won first place for her?"

Johnston already has given the  
 answer. He feels the Davis Cup con-  
 test is more important.

## ASSURED OF SOME BATTING IN 1924

Cleveland Indians Have Seven Play-  
 ers Capable of 300 Hitting or Bet-  
 ter Which is Vital Factor

### MIGHT WIN THE PENNANT

Power of New York Yankees On De-  
 fensive Makes it Imperative Op-  
 position Has Something

By HENRY L. FARRELL  
 (U. P. Staff Correspondent)  
 New York, April 4—With seven  
 players in the line-up day after day  
 who are capable of 300 hitting or  
 better, the Cleveland Indians are  
 assured of some batting through the  
 1924 season if they do nothing else.  
 As the pitching problem concerns  
 so many of the other pennant con-  
 tenders in both major leagues, it  
 will be a vital factor with the In-  
 dians.  
 With such a powerful punch, the  
 Indians might win the pennant un-  
 der ordinary conditions with the pit-  
 chers they had last season but the  
 power of the New York Yankees  
 on the defensive makes its impera-  
 tive their opposition have something  
 besides a sock.  
 Lutzke at third base was a fine  
 player last season on Joe Sewell at  
 shortstop is one of the best in the  
 game. Stephenson will play second  
 base regularly and ought to make  
 good. He is a splendid hitter.  
 There are no better outfielders in  
 the league than Jamieson, Speaker  
 and Summa and there are capable  
 reserves.  
 Steve O'Neal, one of the best  
 catchers in the league has gone to  
 Boston. Some critics think that O'-  
 Neal will be missed badly, particu-  
 larly by the young pitchers, but oth-  
 ers think that Walters will be im-  
 proved by the change from a second  
 division club to a pennant con-  
 tender.

Myatt and Sewell, Speaker has  
 announced, will work regularly with  
 Walters back of the plate.  
 The pitching staff of Uble, Covel-  
 eskie, Morton Shaute, Edwards and  
 Smith.

Uble is one of the greatest pit-  
 chers in the game and the best bat-  
 ting pitcher in baseball. Speaker  
 will have a nine men team every  
 time he pitches and he is a bear for  
 work. Uble ought to be the best  
 pitcher in the league this year.

The Indians look sure to be at  
 least a second place club and if  
 anything should happen to the Yanks  
 they might win the pennant.

CLOTHES MOTH PROTECTION

A TIMELY HOUSEHOLD HINT

Although clothes moths may become destructive in warm rooms at any season of the year, the summer months offer the most favorable conditions and therefore winter clothing stored for the summer becomes most subject to moth infestation. A little care in storing woolen stuffs and furs now or later when winter clothing is laid away may prevent much damage and remove the fear and anxiety of anticipating moth-eaten garments as next winter approaches. Brushing, airing, cleaning and careful and proper storage are the best safeguards against the clothes moth, says Purdue University entomologists.

Garments to be stored for the summer should be brushed thoroughly and hung out-of-doors for a day exposed to the sun and wind. Be sure to brush under labels and cuffs, in pockets, and other places where dust may collect. The closet in which the clothes are to be kept should be thoroughly clean. They should then be wrapped carefully in strong brown paper and placed in pasteboard boxes sealed with gum paper, in paper bags which are sold for storage purposes or in a cedar chest. Naphthalene flakes sprinkled over the clothing before wrapping offers one of the best protections from moth infestation and this insecticide which evaporates slowly does not harm fabric. A cedar chest provides additional safety since the cedar odor is itself repellant to the clothes moth.

Once a garment becomes infested with the clothes moth immediate measures must be taken to destroy the insects. This may be accomplished by several methods. Immersing in water at a temperature of 140°F. for ten seconds, steam pressing, or placing the garments in an oven or elsewhere at a temperature of 110°F. for 30 to 45 minutes kills all stages of the insect. Placing the infested clothes in a tight box and sprinkling liberally with naphthalene will kill many of the insects but if paradichlorobenzene is used in place of naphthalene and the box kept tightly closed for 24 to 48 hours all stages of the insect will be destroyed. Carbon bisulphid is also effective against all stages and is used as a fumigant, the clothing being placed in an airtight container and the liquid bisulphid placed in a saucer which may be set on top of the clothing and the box closed, allowing the liquid to slowly evaporate. An exposure of 24 to 48 hours is necessary and an ounce is sufficient for any box up to the size of a trunk. Carbon bisulphid is explosive and fires of all kinds should be kept away during the treatment.

## Jack Hoxie at Mystic

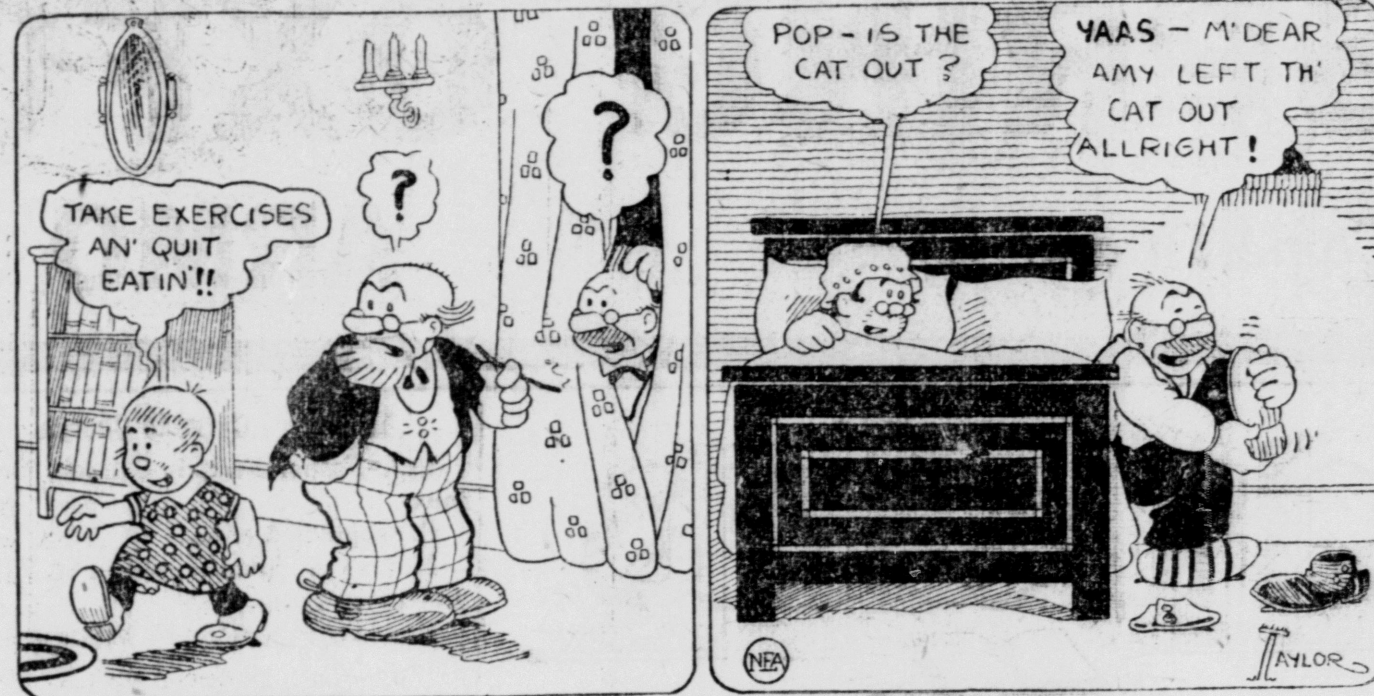

Jack Hoxie, Universal Western star, will be seen in one of the fastest action plays of his screen career at the Mystic theatre today. "Where is This West?" is the title of the film drama and it is a satirical comedy-drama of many laughs and thrills. It involves the experiences of two milkmen from a small Eastern village who start West for adventures. Their adventures begin so suddenly that they aren't just sure when they're really in the West. Hoxie's partner in the milk dispensing industry is Bob McKenzie, ro-tund comedian, who also appeared with Hoxie in "Don Quickshot of the Rio Grande."

George H. Kniss, of Polo, Found Relief From Stomach Trouble 5 Years Ago—Gives Tanlac Full Credit

"Never in my life have I enjoyed better health than I do since taking Tanlac," recently affirmed George H. Kniss, a retired merchant of Polo, Ill.

"My Tanlac experience dates back five years when I took it for stomach trouble. The gas from my undigested food would press on my heart and almost cut off my breath. Along with these smothering spells I would have dizzy attacks and was in such a con-

dition that it handicapped me in attending to business.

"Before I had finished my first bottle of Tanlac I began to straighten right up. My appetite came back with a rush and all my stomach misery soon went away. Three bottles of Tanlac put me to eating like I never had before and my weight went up around twenty-five pounds. Tanlac did a lasting job, too, for I am still feeling fine. You can't beat Tanlac."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

The plot revolves around Jack Fenton (played by Monte Blue), who has loved Beth Alden (portrayed by Irene Rich), all his life. In rescuing Beth from a terrible fire, Jack's face is scarred, but Beth adores him just the same. Then Jack's soul is also scarred by public opinion, which believes him guilty of theft, although the jury declares him innocent. How he wins back his good name and turns the tables on his critics makes a picture of rare charm and interest.

Monte Blue is a former Rush county boy, having lived in his younger days in the northern part of the county.

"The Age of Desire," which is from the pen of Miss Dixie Wilson, and was written while the latter was a member of the cast of the Greenwich Village Follies, is a gripping tale of the cravings of the modern woman. Its theme is one that possesses a powerful appeal and its enfoldment is a series of dramatic highlights.

Mary Philbin, William Collier, Jr., and Myrtle Stedman have the leading roles, assisted by Josef Swickard, Frankie Lee, Mary Jane Irving, J. Farrell MacDonald, Bruce Guerin and Frederick Truesdell.

## How to Save on Your Battery

Just figure it out for yourself—a Willard Threaded Rubber Battery never needs to be reinsulated. Any wood battery must be reinsulated in time. Yet you can buy a Willard Threaded Rubber Battery for only \$27.10—little or no more than you would pay for a reliable wood battery of equal capacity. How's that for economy?

And economy is only one of the real advantages of Willard Threaded Rubber Insulation.

## SHOW HE OWNED OVER A MILLION

Bankers Testify to McCray's Liabilities March 1, 1923, When he Said They Were Only \$537,000

### AMOUNT TO BE INCREASED

Hand-Writing Experts to Testify Signatures on Notes Discounted Were Defendant's Writing

(By United Press)

Indianapolis, Ind., April 4—Governor Warren T. McCray had banked indebtedness of a million and a quarter dollars on March 1, 1923, according to the testimony of seventy Indiana bankers who had testified up to noon in the trial of McCray on larceny and embezzlement charges.

Attorneys for the state said this amount would be further increased by the testimony of more bankers who were ready to take the stand this afternoon.

Throughout the morning the procession of bankers continued in criminal court, each banker telling how much the governor owed his bank on March 1, 1923. The governor's financial statement given to J. Newt Brown the secretary-treasurer of the state board of agriculture, showed liabilities of \$537,000.

The statement was given to Brown shortly before \$155,000 of the board's funds were turned over to McCray.

Special prosecutor Nichols said the state had decided to call additional witnesses and that it would be some time Saturday before they could be heard.

This announcement put an end to reports that the state would rest its case today.

The new witnesses, it was understood, will be hand-writing experts who will be introduced by the state in an effort to prove that the signature on many notes discounted by McCray by state banks, is the hand writing of the governor.

E. E. Ohman, clerk of the loan and discount department of the Harris Loan and Trust company of Chicago, said that on the date in question McCray owed the company \$100,000 in direct obligations.

Other witnesses testified to the following indebtedness:

Steuben County Bank, Angola, \$5,300 indirect.

A. H. Schnell cashier Peoples Savings Bank, Evansville, \$10,000 direct.

J. F. Hall, vice president American National Bank, Vincennes, \$9,900 indirect.

C. H. Ayer, cashier of the North Side Bank of Evansville, said McCray owed his bank nothing on March 1, 1923.

This brought the governor's total liabilities on March 1, 1923, up to \$1,070,823.

### TELLS DAUGHERTY COMMITTEE

Appealed to Superiors in Vain, He Testifies, When Superintendent of Prisons Stopped Him

(By United Press)

Washington, April 7—William J. Burns, chief of the bureau of investigation of the Department of Justice, today told the senate Daugherty investigating committee that he was prevented from going after the "higher ups" behind the "dope" traffic at Atlanta penitentiary.

Declaring that he was told by one of his agents that Superintendent of Prisons Votaw, brother-in-law of the late President Harding, had ordered his investigation of the traffic stopped, Burns said he had appealed to his superiors in the department of justice without avail.

J. W. Dyer of Oklahoma, a prohibition agent, was the first witness called today. Dyer was formerly warden at the Atlanta penitentiary.

Dyer said the inspector of prisons called on him at Atlanta when he was warden and asked him "to step out" as Attorney General Daugherty was "in again". He said he was relieved as warden and then obtained an appointment as prohibition agent.

## WEATHER BAD AS FLIERS GET READY

Americans Encircling Globe Hoped to Be Able to Take Off for Prince Rupert Today

### "SAFETY FIRST" THE RULE

(By United Press)

Seattle, Wash., April 4—Weather was cloudy with showers threatening today as the three American fliers attempting to encircle the globe prepared to take off for Prince Rupert.

Major Martin announced all was in readiness for the flight under reasonable circumstances but declared he would follow the "safety first" rule and if the weather was considered too threatening, the start would be delayed.

The fliers hope to leave Prince Rupert on a globe-girdling flight effort the weather permits. Conditions in Alaska and the Alutian Islands, however were not encouraging with barometer falling and indications of a storm.

### Britishers Are Stalled

Corfu, April 4—Resumption of the part for Sitka, Alaska Saturday if finds the British round the world fliers hopelessly stalled on a lake in this island, awaiting arrival of spare parts from London.

Major MacLaren landed his big amphibian plane here while enroute from Rome to Naples. The reduction gear snapped during a forced landing.

The British fliers in their race against the Americans, have set out on a route of 23,344 miles. To date they have traveled 1,345 miles in approximately 20 hours, 38 minutes actual flying time.

## ROXIE STINSON IS QUAKER BY BIRTH

Witness in Senate Investigation Says Only One Thing Quaker About Her is She Cannot Lie

### EXPLAINS HUSBAND'S SUICIDE

"Jess and I Were Wonderfully Congenial and Grew Steadily Fonder of Each Other," She Stated

By JULIAN STREET

Washington, April 4—Roxie Stinson, former wife of the late Jess Smith and star witness in the senate General Daugherty is a Quaker by birth. She was born in South Dakota but their family moved to Memphis Tenn., and again, when she was ten, to Washington Courthouse Ohio.

"My father's family were Quakers from another part of Ohio" Miss Stinson said to me when I interviewed her and she added "I don't believe I have anything of the Quaker about me, except that I cannot lie."

"If I had committed a murder and was asked whether I had done it, I would have to say 'yes'."

After a musical education, Roxie married Jess Smith, who owned a small department store in Washington Courthouse, but a year later divorced him on a technical charge of gross neglect. The hearing was private and there was nothing about the divorce that reflected on the conduct of character of either.

Explaining her subsequent close friendship with her ex-husband, Miss Stinson said "we still cared for each other and we realized that if we remained friends we would, probably be criticised but we decided that our friendship was enough to offset the criticism of strangers. For our friends, they understood and accepted us."

"Jess and I were wonderfully congenial and grew steadily fonder of each other. At the time of his death I was closer to him than ever before."

"He was a fine man and never did anything dishonorable."

"When he came back from the convention at Chicago, he told me and my companion how Harry Daugherty got the nomination for Harding, going at two in the morning to a room where a secret conference was being held, and strong arming it through."

"The three people Jess loved were Harry, Mal Daugherty and me."

"After they came to Washington, Jess used to travel around with Harry and sleep in the same room with him."

"In April Jess came home in Washington Courthouse and I saw he was in a highly nervous condition. Once, apparently under great Continued on Page Three

**BATH THAT PURIFIES POTATOES**  
It Is Especially Important That Early Potatoes Be Treated

C. T. GREGORY  
(Agricultural Extension Staff, Purdue University)

A potato grower buys certified seed and thinks his troubles have ended. Some men have been greatly surprised to find that the potatoes produced from this certified seed were shabby. This is not surprising since certified seed cannot be freed entirely from scab and black scurf, but only from those diseases which cut the yield without showing in the tuber. Such as leaf roll and mosaic.

All certified potatoes should certainly be treated in a corrosive sublimate bath to kill scab and black scurf. This bath is only for the potatoes and animals should be kept away from it for fear they may drink it. It is very poisonous. Make this solution of four ounces of the corrosive sublimate in 30 gallons of water, or seven ounces in 50 gallons. Soak the potatoes in this solution for one hour. If there are many potatoes to be treated it is best to add enough water after each batch to make the solution back to its original amount and then add two two thirds of an ounce of the corrosive sublimate. Use no metal containers with corrosive sublimate.

It will take from three to four hours to treat enough seed for an acre. Any farmer planting 10 acres or more of potatoes, will want to shorten this time. He can do so with the hot formaldehyde treatment which is just as effective as the corrosive sublimate and shortens the time of each soaking to two minutes. Enough seed for an acre can be treated in about thirty minutes. Use two pints of formaldehyde in

30 gallons of water. Introduce a steam pipe into the solution so that it may be heated from 118 to 122 degrees, and the temperature held constant. If this solution is deep enough to cover the potatoes it is only necessary to dip a crate of potatoes two minutes. Fill the tubers and leave them so for an hour. After which they may be spread out to green sprout or may be cut for seed.

Be sure to treat all green seed before they are sprouted.

**COMPLAINT DISMISSED**

The complaint of Maybelle Sampson against Oakley Sampson, Arlington people, in which the plaintiff was asking for support and which was sent to Greensburg for trial on a change of venue, the case has been dismissed. It is stated that the parties affected a compromise. The support petition asked that she be granted an increase of \$5 a week in her allowance.

**When Your Joints Are Sore, Stiff or Creaky—Joint-Ease**

Even Chronic Rheumatic Swellings in Ankle, Knee, Elbow, Shoulder or Finger Joints Yield to the Mighty Powerful Influence of JOINT-EASE.

It's here, right in town and every live druggist is selling it like hot cakes.

It's a low price remedy, to be sure, but that doesn't stop it from taking the kinks, lameness or torture out of your troubled joints.

Joint-Ease is the name, so called because it is compounded solely for the purpose of relieving all joint ailments.

Just rub it on the tormented, lame joints and in just a few seconds it will penetrate to the bone and tendons and blessed comfort comes. It absorbs instantly and is so clean and stainless that you can rub it on often and get thereby results much more quickly, when the joint is inflamed and the agony intense.

Being such a powerful counter irritant, it cannot help bringing speedy and helpful results in congestion, sore throat, chest colds, lumbago and neuralgia much quicker than almost any other remedy.

But you must remember that it is for joint afflictions; that it is mostly dispensed and its helpfulness will astonish you after all ordinary liniments and other treatments have failed. 60 cents a tube at all druggists or any live druggist.

stress, he exclaimed, "they's passed it up to me."

"I knew what he meant. Some six months before there had been started quiet inquiries, instigated by politics, intended to involve the attorney general and Jess in liquor frauds.

"Jess was terribly concerned about it, but Harry, with his usual coolness in big emergencies let it slide off his back. Subsequent pressure and realization of what Harry Daugherty's attitude towards him would be, was the real cause of Jess Smith's suicide.

"During the time Jess was home his attitude towards me changed greatly. Before that he would always greet me with a kiss when we met, but in those last two weeks he became very demonstrative, snatching up my hand and kissing it, or throwing his arms around me and clinging to me as if he was afraid of something and then would say things—Roxie you are just beautiful. You are the sweetest thing I ever saw.

"We were so near and dear to each other that I know what was going on in his mind. He was in a great trouble and it worried me so I couldn't sleep. The news of his death came to me on the street in Washington Courthouse. I saw a paper with big headlines and read the words 'Jess Smith killed' but I couldn't see the last word because the paper was folded. Just then Mal Daugherty came along and grabbed the paper away from me.

"I saw—it's out."

## Investigating Fire Losses

Newman T. Miller, state fire mar-  
shal, has before him today in confer-  
ence at the state house in Indianapo-  
lis, the chiefs of ten fire departments  
in towns and cities of Indiana where  
heavy fire losses have resulted this  
year.Joe A. Williamson, chief of the  
Rushville department was among  
those summoned for the conference,  
which has been called for the pur-  
pose of making plans to reduce the  
causes for such an enormous loss.  
The first three months this year in  
Indiana there was a loss from fire  
approximately amounting to \$7,000,-  
000.Ft. Wayne started the year with  
a \$500,000 loss, and other cities fol-  
lowed with smaller losses. In Rush-  
ville the fire loss for the first three  
months this year amounted to more  
than it ever did for a single year in  
past history. The local department  
has been called 24 times this year  
to fires, several of which were serious  
losses.Just what good the conference of  
the fire chiefs will accomplish, may  
be seen later. The chiefs alone are  
not to be blamed for the fires. It is  
up to the public to be educated to be  
careful of fire. A campaign along this  
line should be started and followed  
out.A fire prevention campaign is  
something that Rushville never has  
observed in any systematic form.  
This fact is deplorable, because in  
most every city of any size such an  
observance is an annual affair, and  
people are brought face to face with  
problems that will reduce fire haz-  
ards.In cities where such campaigns are  
launched, the fire departments are  
called upon to assist in educating  
the people. In this connection, the  
local fire department has never held  
a drill nor attended a school of any  
kind that might benefit them in re-  
ducing fire problems. These schools,  
drills and fire prevention campaigns  
are regarded by some members of the  
council and fire company, as being  
"too modern" and are termed as time  
wasted. Other cities profit by such  
things.

## Pimples

BLOOD impurities are pumped by  
the heart into the face. That is  
what causes that grainy appearance,  
that muddiness, sallowness, pimples,  
blackheads, acne, red spots, and that  
impossible "something" which no face  
cream, massage, or face powder  
can cover up or beautify! The  
foundation for a beautiful skin  
simply is not there, and no face treatment can give it  
to you. But increase your red  
blood cells—and quickly—the ruby  
tint of purity begins to glow in the  
cheeks, the complexion becomes ven-  
us-like and immaculate! Try it.  
It will do it every time. S.S.S.  
builds the red-blood-cells you need  
for a beautiful complexion. Begin  
using S.S.S. at once, and give your-  
self what you have been working  
for, for years.S.S.S. is sold at all good drug  
stores in two sizes. The larger size  
is more economical.

## Hunt's Washington Letter

BY HARRY B. HUNT  
NEA Service Staff Writer.WASHINGTON, D. C.—Calvin  
Coolidge is feeling better. He  
has a load off his shoulders—and  
off his mind.  
Just to study the physical and  
mental reaction on the president of  
the retirement of Attorney General  
Daugherty from the cabinet, I  
dropped around to the White  
House a couple of hours after  
Daugherty had handed in his resig-  
nation and taken a train for At-  
lantic City.As Coolidge arose from his chair  
behind his desk he pushed the  
chair from him with a backward  
thrust of one leg. He slipped his  
horn-rimmed glasses from over his  
ears and dangled them in one hand.  
He stood slightly stooped, tired,  
looking eyes sunken deep in his  
head and squinting through nar-  
rowed lids, as though driven too  
long in concentrated study or  
without sufficient sleep.Then as if consciously squaring  
himself for a new contest, he threw  
back his shoulders, lifted his head  
and smiled—a little grimly, per-  
haps, but still a smile.One sensed, as he talked, an air  
of relief in his voice and attitude.  
The atmosphere of preoccupation,  
of mental aloofness, that has en-  
shrouded him in recent weeks, was  
gone. A blind corner had been  
turned, and the road ahead seemed  
a bit safer if not easier.ON the way to the executive  
offices, as I passed under the  
big north portico of the White  
House, I glimpsed a stocky, broad-  
shouldered, swarthy man leaning  
nonchalantly against the low wall  
flanking the entrance. He was  
talking with a second man, nod-  
ding his head with deliberate em-  
phasis as he spoke. There was  
about him the assurance, the air  
of proprietorship, of the boss of the  
ranch thoroughly at home in hishis today may do some good, yet the  
question arises, why shouldn't the  
people be educated, and the fire de-  
partment organized to render a ser-  
vice to the people in preventing loss-  
es, rather than following their daily  
business of waiting to be called upon  
to put out a blaze after it is started.

## The Hodge-Podge

By a Paragrapher with a Soul

The Department of Agriculture is  
going to prosecute fish dealers who  
paint salmon red, but there isn't any-  
one who can prosecute the senate in-  
quisitors, who are busily dispensing  
lurid testimony to the public.Mushy sentimentality shouldn't be  
considered if Bergdoll ever comes back.There are men whose idea of econ-  
omy is to bring their wives to town  
and never let them out of the machine.It's all right to remember the wife's  
birthday, but never bother about which  
one it is.Where to park install-ment-plan  
automobile seems to be a greater prob-  
lem than where to park the soul.Life, if it is to be of service to others,  
and happy, should be a running stream  
and not a stagnant pool.In naming the baby, it's always well  
to remember that he may have to carry  
it through a long span of years.Men who never forget boys have  
their reward on earth.Life's too short to spend much time  
quarrelling.When a man has a smart son, he  
seldom gives his wife the credit.

## Thought He Just Rode For a Fall

(Chicago News)  
Although the Prince of Wales, has  
been sleepwalking at long time, he  
has not yet caught one.own establishment. One felt that  
he felt all the importance of being  
president without, personally, hav-  
ing to shoulder the responsibilities.  
This man is the "closest friend  
and advisor" of the president—  
Frank W. Stearns, of Boston.  
What Colonel House was to Wil-  
son, what Harry Daugherty was to  
Harding, Stearns is, and more, to  
Coolidge. House never maintained  
the close and continued intimacy  
with Wilson that Stearns enjoys  
with Coolidge. The relationship is  
a broader and deeper one than that  
between Harding and Daugherty.  
It extends far beneath matters of  
politics and policy, with its roots in  
a personal regard and confidence  
that is more like that of father and  
son than candidate and political  
manager. The White House is vir-  
tual home to the Stearnses in  
Washington—and they're in Wash-  
ington now most of the time.UP to March 30, after having  
been in session four full  
months, the Congress had enacted  
just ONE law. Just one bill had  
passed both houses and been signed  
by the president.Taxation, bonus, appropriation  
measures, immigration and other  
important questions still are in  
half-baked stages. Those that have  
passed the house, taxation and  
bonus for example, will be largely  
revamped in the Senate. With the  
date of the national conventions  
now but two months away, there is  
little likelihood of adjournment by  
that time. Instead, Congress prob-  
ably will recess over the conven-  
tion weeks, and put in the remain-  
der of the summer in Washington  
sweating over legislation and mak-  
ing political thunder.The fever of investigation rages  
unabated, despite hopeful bulletins  
that the worst of the epidemic has  
passed. They will last through at  
least another two months—prob-  
ably longer.FIFTEEN YEARS

## My Secrets

Of beauty are yours now, if you wish

By Edna Wallace Hopper

I made myself a famous beauty,  
and that beauty brought me glory. I  
have kept that beauty to a grand old  
age. After 40 years in the limelight,  
I still look a girl of 19.These facts are due to helps I  
found through years of world-wide  
searching. They are, I believe, the  
best beauty helps in existence. No  
one I know has, in other ways, at-  
tained any like results.So I have had these helps prepared  
and placed where all may get them.  
And I hope to see them bring to  
millions the benefits I got.

## Just Four Will Do

These beauty helps comprise 32  
different factors. But great experts  
have combined them in four prepa-  
rations. And all are sold at modest  
prices which every girl and woman  
can afford.One is my White Youth Clay. A  
clean, refined clay, vastly more ef-  
ficient than ordinary clays. A clay  
perfected by French experts through  
20 years of scientific study.My White Youth Clay brings a new  
complexion, rosy, clear and clean. It  
combats all lines and wrinkles. No  
woman who once tries it will ever go  
without it. It costs 50 cents and \$1.

## Youthful Bloom

My Youth Cream is a cold cream  
like nothing else you know. It con-  
tains products of both lemon and  
strawberry. French experts have em-bodied in it the best skin helps they  
know.Apply it after the clay. Also use it  
as a night cream, also daytimes as  
a powder base. Keep it over on the  
skin to feed and whiten, firm, soften  
and protect. The price is 60 cents.My Facial Youth is a liquid clean-  
ser, now used by leading beauty ex-  
perts the world over. It contains no  
animal, no vegetable fat. The skin  
cannot absorb it. So it cleans to the  
depths, then departs. And the dirt  
and refuse nothing else can reach  
comes with it. Great beauty experts  
charge \$3 for it. Mine sells for 75  
cents.

## The Hair You Envy

My glorious hair is due to my Hair  
Youth. It is heavy, silky, lustrous,  
and grows finer every year. Falling  
hair, dandruff and gray hairs are un-  
known to me.My Hair Youth is applied with an  
eye dropper, directly to the scalp. It  
does not muss the hair. It keeps the  
scalp like a well-kept garden where  
hair roots can flourish. It costs 50  
cents and \$1 with eye dropper.All druggists and toilet counters  
supply these preparations, exactly as  
I use them. My Beauty book comes  
with each. They will bring you rich  
rewards. If you want more beauty,  
longer youth, these are the best  
ways science knows to get them. Ed-

Drive, Chicago. —Advertisement

## Weakened in Tennis Play

By HENRY L. FARRELL  
(United Press Sports Editor)

New York, April 4—Bill Tilden and Bill Johnston, two young men as capable mentally as they are perfect in the mechanics of tennis, say they prefer to save their resources for the defense of the Davis Cup rather than attempting to win the Olympic tennis championship for United States.

To some professional flag-wavers this savor of Bolshevism, and a more conservative viewpoint might find in it the symptoms of an unpatriotic spirit.

Tilden is in the clear, however. He is barred from the Olympic team by the rule passed which prohibits any athlete from writing for publication while he is a member of the team. He is not barred from the American Davis Cup team, because the same kind of a rule passed by the tennis association against player-writers

does not become effective until next year.

Bill Johnston, however, is in the tight place. He says he cannot consider an appointment to a place on the Olympic team because he cannot get away from his business long enough to play in Paris and in the Davis Cup matches and he prefers to pass up the Olympics.

With Vinnie Richards barred also, from the Olympic team because of his literary leanings, the United States will have to depend upon Dick Williams, Watty Washburn and, perhaps, a few college players. Hunter, Anderson, the Kinseys, and several others are also writers.

Under the circumstances it is quite possible that the United States might finish no higher than second in the Olympic tennis matches, and in that event Johnston will have to answer the question: "Why did you leave your country flat when you could have won first place for her?"

Johnston already has given the answer: He feels the Davis Cup contest is more important.

CLOTHES MOTH PROTECTION

A TIMELY HOUSEHOLD HINT

Although clothes moths may become destructive in warm rooms at any season of the year, the summer months offer the most favorable conditions and therefore winter clothing stored for the summer becomes most subject to moth infestation. A little care in storing woolen stuffs and furs now or later when winter clothing is laid away may prevent much damage and remove the fear and anxiety of anticipating moth-eaten garments as next winter approaches. Brushing, airing, cleaning and careful and proper storage are the best safeguards against the clothes moth, says Purdue University entomologists.

Garments to be stored for the summer should be brushed thoroughly and hung out-of-doors for a day exposed to the sun and wind. Be sure to brush under labels and cuffs, in pockets, and other places where dust may collect. The closet in which the clothes are to be kept should be thoroughly clean. They should then be wrapped carefully in strong brown paper and placed in pasteboard boxes sealed with gum paper, in paper bags which are sold for storage purposes or in a cedar chest. Naphthalene flakes, sprinkled over the clothing before wrapping offers one of the best protections from moth infestation and this insecticide which evaporates slowly does not harm fabric. A cedar chest provides additional safety since the cedar odor is itself repellant to the clothes moth.

Once a garment becomes infested with the clothes moth immediate measures must be taken to destroy the insects. This may be accomplished by several methods. Immersing in water at a temperature of 140°F. for ten seconds; steam pressing, or placing the garments in an oven or elsewhere at a temperature of 110°F. for 30 to 45 minutes kills all stages of the insect. Placing the infested clothes in a tight box and sprinkling liberally with naphthalene will kill many of the insects but if paradichlorobenzene is used in place of naphthalene and the box kept tightly closed for 24 to 48 hours all stages of the insect will be destroyed. Carbon bisulphid is also effective against all stages and is used as a fumigant, the clothing being placed in an airtight container and the liquid bisulphid placed in a saucer which may be set on top of the clothing and the box closed, allowing the liquid to slowly evaporate. An exposure of 24 to 48 hours is necessary and an ounce is sufficient for any box up to the size of a trunk. Carbon bisulphid is explosive and fires of all kinds should be kept away during the treatment.

Jack Hoxie, Universal Western star, will be seen in one of the fastest action plays of his screen career at the Mystic theatre today. "Where is This West?" is the title of the film drama and it is a satirical comedy-drama of many laughs and thrills. It involves the experiences of two milkmen from a small Eastern village who start West for adventures. Their adventures begin so suddenly that they aren't just sure when they're really in the West. Hoxie's partner in the milk dispensing industry is Bob McKenzie, ro-tund comedian, who also appeared with Hoxie in "Don Quixote of the Rio Grande."

ILLINOIS MERCHANT GIVES FACTS IN CASE

George H. Kniess, of Polo, Found Relief From Stomach Trouble 5 Years Ago—Gives Tanlac Full Credit

"Never in my life have I enjoyed better health than I do since taking Tanlac," recently affirmed George H. Kniess, a retired merchant of Polo, Ill.

"My Tanlac experience dates back five years when I took it for stomach trouble. The gas from my undigested food would press on my heart and almost cut off my breath. Along with these smothering spells I would have dizzy attacks and was in such a con-

dition that it handicapped me in attending to business.

"Before I had finished my first bottle of Tanlac I began to straighten right up. My appetite came back with a rush and all my stomach misery soon went away. Three bottles of Tanlac put me to eating like I never had before and my weight went up around twenty-five pounds. Tanlac did a lasting job, too, for I am still feeling fine. You can't beat Tanlac."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

## Diseases traced to constipation are many—get permanent relief with Kellogg's Bran

Why does constipation breed other diseases? Because it floods your system with dangerous poisons. And the longer you suffer, the more poisons accumulate. That is why constipation should be relieved at once.

Doctors recommend Kellogg's Bran, cooked and crumbled. They know it brings results because it is ALL bran. And only ALL bran can be 100 per cent effective in relieving constipation.

ALL bran—Kellogg's—sweeps, cleans and purifies the intestine. It acts as nature acts. It makes the intestine function naturally and regularly. If eaten regularly, it will bring permanent relief in the most chronic cases of constipation—is guaranteed

to do so or your grocer returns your money.

Eat at least two tablespoonfuls daily—in chronic cases, with every meal. You will like the wonderful Kellogg's flavor—so crisp and nut-like—so different from ordinary bran, which are most unpalatable.

Eat Kellogg's Bran, cooked and crumbled, with milk or cream. Sprinkle it over other cereals. Cook it with hot cereals. And by all means try it in the recipes given on every package.

Kellogg's Bran, cooked and crumbled, made in Battle Creek, is served in individual packages by the leading hotels and restaurants. Sold by all grocers.

Just figure it out for yourself—a Willard Threaded Rubber Battery never needs to be re-insulated. Any wood battery must be re-insulated in time. Yet you can buy a Willard Threaded Rubber Battery for only \$27.10—little or no more than you would pay for a reliable wood battery of equal capacity. How's that for economy?

And economy is only one of the real advantages of Willard Threaded Rubber Insulation.

Says Little Ampere: "It takes battery specialists to build and service batteries right. I've got my degree."
